

DEPARTMENT OF  
MECHANICAL ENGINEERING

August 3, 2021

Waseem Ashraf  
915 E 820 N  
Provo, UT 84606

Dear Waseem,

Thank you for applying to the graduate program at Brigham Young University. Based on your outstanding qualifications and department nomination, the College of Engineering is pleased to offer you a Fulton Fellowship, which includes an extra \$10,000 stipend for the first year in your Ph.D. program. We hope the extra funds will help you focus on your academic classes and research during your first year here.

If you accept this fellowship, please sign and return this letter to Janelle Harkness, Mechanical Engineering Graduate Program Manager. The Mechanical Engineering Department will arrange distribution of this stipend to your BYU account once you are enrolled in classes. Typically, one third of the fellowship will be distributed at the start of each semester (Fall, Winter, and Spring/Summer).

Welcome to BYU. I look forward to meeting you in person.

Sincerely,

Dale Tree, PhD  
Professor/Department Chair  
Department of Mechanical Engineering  
Brigham Young University

Note: under U.S. tax law, all amounts received by you for scholarships, benefits, fellowships, and grants from BYU or any other source, which combined exceed the cost of tuition, fees, books, and required equipment and supplies may be considered taxable income. Since you are required to report these awards to the Internal Revenue Service as income, it is recommended that you keep a detailed record (including canceled checks and/or receipts) of all expenditures for tuition, fees, books, and required equipment and supplies. Amounts in excess of this, such as amounts for housing and food, are considered non-exempt and subject to income tax. The University is not required to withhold any amounts from award payments thus you will be entirely responsible for any taxes that may be due to the government. The law concerning taxation of scholarships and fellows is complex. For more detailed information, consult with your personal tax advisor.
